Objective

To encourage the students of Pharmacy to participate and present on latest happenings in Pharmaceutical Education and Research. It creates an academic and scientific platform for students to exchange their ideas and to prove their identity in the global pharmacy field.

Eligibility

Students of B. Pharm., M. Pharm., Pharm. D. and Research Scholars.

Contact Numbers

A two week certificate programme on

"EMERGING THERAPY FOR CANCER"

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

1. Cancer is a global health problem responsible for one in six deaths worldwide.
2. In 2020, there were an estimated 19.3 million new cancer cases and about 10 million cancer deaths globally.
3. Cancer is a very complicated sequence of disease conditions progressing gradually with a generalized loss of growth control.
4. There were only a few options of cancer treatment for patients for many decades which include surgery, radiation therapy, and chemotherapy as single treatments or in combination.
5. But recently, many pathways involved in cancer therapy progression and how they can be targeted has improved dramatically, with combinatorial strategies, involving multiple targeted therapies or "traditional" chemotherapeutics, such as the taxanes and platinum compounds, being found to have a synergistic effect.

Last date for registration:

09-02-2024.

Objectives of the program:

- Develop safe and effective methods to prevent detect diagnose, treat and ultimately, cure the collections of diseases we call cancer
- To achieve cure and secondly to palliate (Life prolongation and relief of sufferings) where cure is not possible due to advanced disease (Cancer)
- Developing treatments that are more effective at targeting and destroying cancer cells while minimizing damage to healthy tissues .
- Improving diagnostic techniques for early detection and monitoring of cancer progression, facilitating timely intervention.

Learning outcomes:

1. Increasing cancer awareness in more deprived areas could help to reduce health inequalities and improve cancer outcomes.
2. Critically analyse the importance of understanding the DNA Damage repair response for cancer research and treatment
3. Critically discuss the application of principles of immunology when studying and developing treatments of cancer.

Registration Committee

Mr. K. Sudhakar, M. Pharm.(PhD)
Mr. V. PB Chary, M.Pharm.(PhD)
Mrs. V. Hima Bindu, M. Pharm,

Objective

To encourage the students of Pharmacy to participate and present on latest happenings in Pharmaceutical Education and Research. It creates an academic and scientific platform for students to exchange their ideas and to prove their identity in the global pharmacy field.

Eligibility

Students of B. Pharm., M. Pharm., Pharm. D. and Research Scholars.

Contact Numbers

A Two week certificate programme on

"BIOLOGICAL PRODUCTS"

12-03-2024 TO 28-03-2024

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with PharmD.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

1. Biological products are regulated by the Food and Drug Administration (FDA) and are used to diagnose, prevent, treat, and cure diseases and medical conditions.
2. Biological products are a diverse category of products and are generally large, complex molecules.
3. These products may be produced through biotechnology in a living system, such as a microorganism, plant cell, or animal cell, and are often more difficult to characterize than small molecule drugs.
4. There are many types of biological products approved for use in the United States, including therapeutic proteins (such as filgrastim monoclonal antibodies (such as adalimumab), and vaccines (such as those for influenza and tetanus).

Last date for registration:

11-03-2024.

Objectives of the program:

1. To Develop biological products with defined characteristics ;such as specificity; potency and stability.
2. To optimize production processes to enhance yield, scalability and cost-effectiveness while maintaining product quality and consistency.
3. To obtain regulatory approvals and authorizations for biological products.
4. To assess the identity; purity; potency and stability of biological products. adhering to established specifications and criteria.

Learning outcomes:

1. Describe the bioprocess engineering principles involved in the production of biological products.
 2. Demonstrate comprehension of fundamental biological concepts relevant to the production; regulation and application of biological products
- Develop protocols for risk assessment; risk mitigation; and crisis management in the context of biological product manufacturing and distribution.

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on “**BIOLOGICAL PRODUCTS**”.

Date: from 12-03-2024 to 28-03-2024.

Resource Person: T. Praveen Kumar,
Assistant professor
Dept of. Pharmaceutics
Anurag Pharmacy College
Contact number: 9100337332.

Name of coordinator: K. Sudhakar
Asst Professor
Dept of. Pharmacognosy.

Number of Students attended: 50

VENUE: Auditorium, Anurag Pharmacy College

Anurag Pharmacy College, Ananthagiri, organized a certificate program on “**BIOLOGICAL PRODUCTS**”. Pharm D students by the resource person T. Praveen Kumar, BP conduct through to assess the identity, purity, potency and stability of biological products. Adhering to established specifications and criteria. Totally 50 students were participated in this training program and after the completion of the program they were able to understand the following objectives and leaning outcomes.

ANURAG Pharmacy College

(Approved by PCI New Delhi, Affiliated to JNTUH, Hyderabad)
Ananthagiri (V&M), Kodad, Suryapet (Dist), Telangana. 508206
Mobile: 9553122271. Email: principal.pharmacy@anurag.ac.in
Website: www.anuragpharmacy.ac.in

Objectives:

1. To develop biological products with defined characteristics; such as specify; potency and stability.
2. To optimize production processes to enhance yield, scalability and cost-effectiveness while maintaining product quality and consistency.
3. To obtain regulatory approvals and authorizations for biological products

Learning outcomes:

1. Describe the bioprocess engineering principles involved in the production of biological products.
2. Demonstrate comprehension of fundamental biological concepts relevant to the production; regulation and application of biological products
3. Develop protocols for risk assessment; risk mitigation; and crisis management in the context of biological product manufacturing and distribution.

This course was very useful to the students and their feedback is positive. The management and Dr. M. ChinnaEswaraiah, Principal of Anurag Pharmacy College thanked the resource person and participants for making the program successful.
