Awareness Program on Biotechnology and Intellectual Property Rights **29th Jan 2020**

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

The course will give knowledge about Biotechnology and Intellectual Property Rights.

- Biotechnology and Intellectual Property Rights highlight the importance of promoting innovation and creativity as drivers of scientific and economic progress.
- Intellectual Property Rights in biotechnology demonstrate the importance of legal protection for inventions and creative works to encourage innovation and investment..
- Biotechnology and Intellectual Property Rights raise important ethical and social issues, including access to healthcare, environmental protection, and the fair distribution of benefits arising from biotechnology research.
- Biotechnology is a global enterprise, and Intellectual Property Rights and regulations often need to be harmonized across different countries and regions to ensure fair and effective protection of intellectual property rights.

Resource Person:

Ms. G. Sangeetha Roy,
Assistant Professor,
Department of Pharmacy Practice,
KLR Pharmacy College, Paloncha,
Telangana.

Last date to Registration: 28/01/2020

Objectives of the program:

- Developing new products and processes that can improve human health and well-being, such as medicines, vaccines, and diagnostics.
- Developing new agricultural technologies that can improve crop yields, reduce crop loss, and enhance the nutritional value of food.
- Developing new industrial applications that can help to reduce waste, increase energy efficiency, and promote sustainable development.
- Advancing scientific knowledge and understanding of biological processes, which can help to inform and guide further research and development in biotechnology.

Topics to be covered:

- Plant Breeders' Rights
- Trade Secrets
- Copyrights
- Access and Benefit-Sharing
- Regulatory Affairs:
- Ethics and Social Implications
- International Law and Policy
- Litigation and Dispute Resolution

Outcome of the program

Our students and faculty had learned about Biotechnology and Intellectual Property Rights and gained knowledge on:

Biotechnology and Intellectual Property Rights highlight the importance of promoting innovation and creativity as drivers of scientific and economic progress.

Intellectual Property Rights in biotechnology demonstrate the importance of legal protection for inventions and creative works to encourage innovation and investment.

Biotechnology products often require regulation to ensure their safety, efficacy, and ethical use, highlighting the importance of regulatory frameworks to protect public health and the environment.

Biotechnology often involves collaborations between scientists, researchers, industry, and governments, highlighting the importance of cooperation and partnership in advancing scientific and technological progress.

Biotechnology and Intellectual Property Rights raise important ethical and social issues, including access to healthcare, environmental protection, and the fair distribution of benefits arising from biotechnology research.

Biotechnology is a global enterprise, and Intellectual Property Rights and regulations often need to be harmonized across different countries and regions to ensure fair and effective protection of intellectual property rights.

on

Legal Issues in Pharmaceuticals

28th Nov 2019

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

The course will give knowledge about Legal Issues in Pharmaceuticals.

- Legal issues in pharmaceuticals help to develop an understanding of the regulatory framework that governs the industry.
- Studying legal issues in pharmaceuticals helps to raise awareness of intellectual property rights and the importance of protecting them..
- Legal issues in pharmaceuticals provide insights into product liability concerns and the legal responsibilities of pharmaceutical companies in cases where their products cause harm to patients.
- Legal issues in pharmaceuticals help to develop an understanding of the regulations governing marketing and advertising of pharmaceutical products, including guidelines for marketing practices and the requirements for drug labeling.
- Legal issues in pharmaceuticals provide insights into the challenges associated with international trade and intellectual property protection, particularly in emerging markets.

Resource Person:

Mrs. P.A.M.Sucharitha,
Associate Professor,
Department of Pharmacognosy,
P.Rami Reddy Memorial College of
Pharmacy, Kadapa, Andhra Pradesh.

Last date to Registration: 27/11/2019

Objectives of the program:

- To ensure that pharmaceutical companies comply with regulations set by government agencies such as the FDA.
- Pharmaceutical companies invest heavily in research and development to create new drugs, and legal issues help to protect their intellectual property rights.
- Legal issues in pharmaceuticals also aim to address product liability concerns, which arise when a drug causes harm to a patient. This includes ensuring that drugs are properly tested and labeled, and that manufacturers are held accountable for any harm caused by their products.
- Legal issues in pharmaceuticals also aim to protect the rights of consumers, such as ensuring access to affordable medicines, protecting patient privacy, and promoting transparency in drug pricing and advertising.

Topics to be covered:

- Intellectual Property Law
- Regulatory Compliance
- Product Liability
- Marketing and Advertising,
- Pricing and Reimbursement
- Clinical Trials
- Data Privacy and Security

A Program

on

**Building a successful pharmacy
entrepreneur challenges and opportunities**

06th Nov 2019

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

The course will give knowledge about the Young entrepreneurs to build the future.

- Inspiration and motivation to pursue entrepreneurship as a viable career path.
- Enhanced understanding of the entrepreneurial mindset and the qualities of successful young entrepreneurs.
- Cultivation of creativity and innovative thinking for generating business ideas.
- Knowledge and skills to develop a solid business plan and viable business model.
- Awareness of fundraising and financing options available to young entrepreneurs.
- Proficiency in implementing effective marketing and sales strategies.
- Development of leadership and team management skills.
- Strategies for overcoming challenges and failures encountered in entrepreneurship.
- Networking opportunities with experienced entrepreneurs and potential mentors.
- Empowerment to take the first steps towards building their own ventures and shaping the future.

Resource Person:

Mrs. B. Leena
Assistant Professor
Department of Pharmacology
Browns College of Pharmacy, Khammam,
Telangana.

Last date to Registration: 05/11/2019

Objectives of the program:

- Gain a comprehensive understanding of what it means to be a pharmacy entrepreneur and the unique challenges and opportunities it presents.
- Learn how to identify gaps and unmet needs in the pharmaceutical industry, and how to develop innovative solutions to address them.
- Acquire essential skills in developing a robust business plan, formulating strategies, and executing them effectively in the pharmacy sector.
- : Understand the legal and regulatory framework governing the pharmacy industry, including licensing, compliance, and ethical considerations.
- Build connections with like-minded individuals, industry experts, and potential collaborators to foster partnerships and create opportunities for growth.

Topics to be covered:

- Introduction to pharmacy entrepreneurship
- Understanding market dynamics and identifying opportunities
- Developing a business plan and formulating strategies
- Legal and regulatory considerations in the pharmacy industry
- Financial management and funding options

A Program on Young entrepreneurs to build the future

25th-Sept 2019

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

The course will give knowledge about the Young entrepreneurs to build the future.

- Inspiration and motivation to pursue entrepreneurship as a viable career path.
- Enhanced understanding of the entrepreneurial mindset and the qualities of successful young entrepreneurs.
- Cultivation of creativity and innovative thinking for generating business ideas.
- Knowledge and skills to develop a solid business plan and viable business model.
- Awareness of fundraising and financing options available to young entrepreneurs.
- Proficiency in implementing effective marketing and sales strategies.
- Development of leadership and team management skills.
- Strategies for overcoming challenges and failures encountered in entrepreneurship.
- Networking opportunities with experienced entrepreneurs and potential mentors.
- Empowerment to take the first steps towards building their own ventures and shaping the future.

Resource Person:

Dr. S. Nelson Kumar

Professor & Principal

P. Ramireddy Memorial College of Pharmacy, Kadapa, Andhra Pradesh.

Last date to Registration: 24/09/2019

Objectives of the program:

- Inspire and motivate young individuals to pursue entrepreneurship as a career path.
- Provide insights into the entrepreneurial mindset and the qualities of successful young entrepreneurs.
- Foster creative and innovative thinking among aspiring entrepreneurs.
- Equip participants with essential skills and knowledge to start and grow their own ventures.
- Share practical strategies for overcoming challenges and obstacles faced by young entrepreneurs.
- Create a platform for networking and collaboration among like-minded individuals.
- Connect participants with experienced entrepreneurs for guidance and support.

Topics to be covered:

- Introduction to entrepreneurship: Opportunities and challenges.
- Developing an entrepreneurial mindset and cultivating creativity.
- Business planning and creating a viable business model.
- Building a strong personal brand as a young entrepreneur.
- Fundraising and financing options for young ventures.
- Marketing and sales strategies for young entrepreneurs.

A One Day Seminar on Patenting and Licensing of Stem Cell Technologist 07th Aug 2019

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

The course will give knowledge about- Patenting and Licensing of Stem Cell Technologies.

- Patenting and licensing of stem cell technologies can provide a financial incentive for researchers and companies to invest time and resources into developing new stem cell-based therapies, leading to the discovery of new treatments for diseases.
- Allows researchers and companies to protect their intellectual property rights, which can provide an exclusive right to commercialize and market the technology, and help recoup the costs of research and development.
- It helps to ensure that stem cell-based therapies are developed and commercialized in compliance with regulatory requirements, promoting patient safety and public trust.

Resource Person:

Mr. B. Ravi,
M. Pharm,
Assistant Professor,
Department of Pharmacology,
Swami Ramananda Tirtha Institute of
Pharmaceutical Sciences, Nalgonda,
Telangana.

Last date to Registration: 06/08/2019

Objectives of the program:

- Provides researchers and companies with a financial incentive to invest in research and development of new stem cell-based therapies, by allowing them to protect their innovations and potentially earn a return on their investment.
- Enables stem cell researchers and companies to protect their intellectual property rights, which encourages investment in and development of stem cell technologies, and promotes technology transfer.
- Facilitates the commercialization of new stem cell-based therapies, by providing exclusive rights to commercialize and market the technology, and thereby generate profits to support further research and development.
- Ensure that stem cell-based therapies are developed and commercialized in a safe and ethical manner, by enabling regulatory agencies to establish and enforce safety and ethical standards.

Topics to be covered:

- Types of stem cells
- Licensing agreements
- Technology transfer
- Regulatory compliance
- Business development

Outcome of the program

Our students and faculty had learned about Patenting and Licensing of Stem Cell Technologies and gained knowledge on following areas:

Patenting and licensing of stem cell technologies can provide a financial incentive for researchers and companies to invest time and resources into developing new stem cell-based therapies, leading to the discovery of new treatments for diseases.

Allows researchers and companies to protect their intellectual property rights, which can provide an exclusive right to commercialize and market the technology, and help recoup the costs of research and development. Licensing agreements can facilitate collaboration between stem cell researchers and companies, enabling the sharing of technology and know-how, and fostering the development of new stem cell-based therapies.

It helps to ensure that stem cell-based therapies are developed and commercialized in compliance with regulatory requirements, promoting patient safety and public trust.

It can lead to the development of new stem cell-based therapies, which can improve patient outcomes and quality of life for those suffering from various diseases.

It can promote economic growth by stimulating investment, creating jobs, and generating revenues for stem cell research institutions and companies.

CERTIFICATE OF PARTICIPATION

This is to certify that

.....*Mallika J*.....

has participated as delegate in "A One Day Seminar on Patenting and Licensing of Stem Cell Technologies" held on 7th Aug 2019 at Anurag Pharmacy College, Ananthagiri, Kodad.

Dr. S. Jaya,
Convenor

Dr. M. Chinnaeswaraiah
Principal

PRINCIPAL
Anurag Pharmacy College
Ananthagiri, KODAD, Suryapet

Registration

Registration fee is Rs.250/- including kit, e- souvenir, and participation certificate.

Objective

To encourage the students of Pharmacy to participate and present on latest happenings in Pharmaceutical Education and Research. It creates an academic and scientific platform for students to exchange their ideas and to prove their identity in the global pharmacy field.

Eligibility

Students of B. Pharm., M. Pharm., Pharm. D. and Research Scholars.

Contact Numbers

A one-day Seminar on Research Innovation in Pharmaceutical Sciences

23rd July 2019

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- Understanding of the importance and scope of research innovation in pharmaceutical sciences.
- Proficiency in research methodology, including study design and data analysis.
- Knowledge of the latest technologies and their applications in pharmaceutical research.
- Insight into the drug discovery and development process, including regulatory considerations.
- Ability to identify and evaluate innovative approaches to drug delivery.
- Enhanced skills in translational research and bridging the gap between basic research and clinical applications.
- Awareness of ethical considerations and regulatory requirements in pharmaceutical research.
- Strengthened critical thinking and problem-solving abilities in the field of pharmaceutical sciences.

Resource Person:

Dr. P. Subhas Chandra Bose,
M. Pharm, Ph.D,
Professor,
Department of Pharmaceutics,
MNR College of Pharmacy, Sangareddy,
Telangana

Last date to Registration: 22/07/2019

Objectives of the program:

1. To provide a platform for researchers, scientists, and professionals in pharmaceutical sciences to share their latest research findings, innovations, and insights.
2. To foster collaboration and networking among attendees from academia, industry, and other relevant fields to encourage interdisciplinary research and partnerships.
3. To showcase cutting-edge research and innovations in pharmaceutical sciences, including drug discovery, development, delivery systems, and therapeutic approaches.
4. To discuss and explore emerging trends and technologies in pharmaceutical sciences, such as personalized medicine, precision therapeutics, and AI-driven drug discovery.

Topics to be covered:

- Introduction to Research Innovation in Pharmaceutical Sciences
- Research Methodology in Pharmaceutical Sciences
- Emerging Technologies in Pharmaceutical Research
- Drug Discovery and Development
- Translational Research in Pharmaceutical Sciences
- Innovative Approaches to Drug Delivery

PROGRAM REPORT

Program Name	A One-day Seminar on Research Innovation in Pharmaceutical Sciences
Resource Person	Dr. P. Subhas Chandra Bose , Professor, Department of Pharmaceutics, MNR College of Pharmacy, Sangareddy, , Telangana Mail Id: penjurisubhash@gmail.com Mobile: 98480 33974
Date of Activity	23/07/2019
Organised By	Anurag Pharmacy College
Venue	Anurag Pharmacy College Auditorium

The objectives:

1. Knowledge sharing: To provide a platform for researchers, scientists, and professionals in pharmaceutical sciences to share their latest research findings, innovations, and insights.
2. Promoting collaboration: To foster collaboration and networking among attendees from academia, industry, and other relevant fields to encourage interdisciplinary research and partnerships.
3. Advancing pharmaceutical research: To showcase cutting-edge research and innovations in pharmaceutical sciences, including drug discovery, development, delivery systems, and therapeutic approaches.
4. Exploring emerging trends: To discuss and explore emerging trends and technologies in pharmaceutical sciences, such as personalized medicine, precision therapeutics, and AI-driven drug discovery.
5. Addressing challenges: To identify and discuss challenges and obstacles in the pharmaceutical research landscape and brainstorm potential solutions.
6. Industry-academia interaction: To facilitate interactions between academia and industry stakeholders, promoting technology transfer, and encouraging the application of research in real-world scenarios.

ANURAG Pharmacy College

(Approved by PCI & AICTE, New Delhi, Affiliated to JNTUH, Hyderabad)

Ananthagiri (V&M), Kodad, Suryapet (Dist), Telangana. 508206

Mobile: 9553122271. Email: principal.pharmacy@anurag.ac.in

Website: www.anuragpharmacy.ac.in

7. Career development: To provide students, early-career researchers, and professionals with insights into career opportunities and pathways in pharmaceutical sciences.
8. Regulatory updates: To update attendees on the latest regulatory guidelines and requirements in pharmaceutical research and development.
9. Ethical considerations: To foster discussions on ethical considerations in pharmaceutical research, including patient privacy, data sharing, and responsible innovation.
10. Inspire innovation: To inspire attendees to think creatively and push the boundaries of pharmaceutical research to address global health challenges effectively.

Topics Covered:

1. Introduction to Research Innovation in Pharmaceutical Sciences
 - Definition and importance of research innovation in the pharmaceutical industry
 - Current trends and challenges in pharmaceutical research
2. Research Methodology in Pharmaceutical Sciences
 - Understanding the scientific research process
 - Research design and experimental approaches
 - Data collection and analysis methods
 - Ethical considerations in pharmaceutical research
3. Emerging Technologies in Pharmaceutical Research
 - Application of artificial intelligence (AI) and machine learning in drug discovery
 - Nanotechnology and its impact on drug delivery systems
 - Pharmacogenomics and personalized medicine
 - Biotechnology and genetic engineering in pharmaceutical research
4. Drug Discovery and Development
 - Overview of the drug discovery process
 - Target identification and validation
 - High-throughput screening and lead optimization
 - Preclinical and clinical development phases
 - Regulatory considerations and approval processes

ANURAG Pharmacy College

Mobile: 9553122271. Email: principal.pharmacy@anurag.ac.in

Website: www.anuragpharmacy.ac.in

5. Translational Research in Pharmaceutical Sciences

- Bridging the gap between basic research and clinical applications
- Preclinical to clinical translation of pharmaceutical innovations
- Challenges and strategies in translational research

6. Innovative Approaches to Drug Delivery

- Novel drug delivery systems (e.g., nanoparticles, liposomes, microneedles)
- Targeted drug delivery and controlled release systems
- Non-invasive drug delivery techniques
- Combination therapy and drug repurposing

A Program on Startup and Entrepreneurship in pharma sector 27th-June 2019

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

The course will give knowledge about the startup and entrepreneurship in pharma sector.

- Enhanced understanding of the entrepreneurial landscape in pharmaceutical sector.
- Knowledge of the key steps involved in starting and managing a pharmaceutical start-up.
- Understanding of the regulatory and legal frameworks specific to the pharmaceutical industry.
- Insights into product development and innovation strategies in the pharma sector.
- Proficiency in developing effective marketing and sales strategies.
- Awareness of financial aspects and funding options for pharmaceutical start-ups.
- Knowledge of intellectual property protection and licensing in the pharmaceutical industry.
- Inspiration from case studies of successful pharmaceutical entrepreneurs.

Resource Person:

Dr.R.Manohar

Professor

Department of Pharmacology

P.Ramireddy Memorial College of Pharmacy, Kadapa, Andhra Pradesh.

Last date to Registration: 25/06/2019

Objectives of the program:

- Understanding the entrepreneurial opportunities and challenges in pharmaceutical sector.
- Exploring the principles and strategies for starting a successful pharmaceutical start-up.
- Gaining insights into the regulatory frameworks and legal considerations specific to the pharmaceutical industry.
- Learning about product development and innovation in the pharma sector.
- Discovering effective marketing and sales strategies for pharmaceutical products.
- Understanding the financial aspects and funding options for pharmaceutical start-ups.
- Exploring case studies of successful pharmaceutical entrepreneurs and their journeys.

Topics to be covered:

- Regulatory frameworks.
- Product development and innovation strategies
- Marketing and sales strategies for pharmaceutical products.
- Financial aspects and funding options
- Intellectual property protection and licensing in the pharma sector.
- Case studies of successful pharmaceutical start-ups and their growth stories.

PROGRAM REPORT

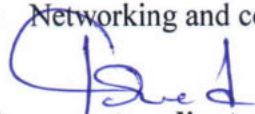

Program Name	A Program on start up and entrepreneurship in pharma sector
Resource Person	Dr. R. Manohar, Professor, Department of Pharmacology, P. Ramireddy Memorial College of Pharmacy, Kadapa, Andhra Pradesh.
Date of Activity	27/06/2019
Organised By	Anurag Pharmacy College
Venue	Anurag Pharmacy College

Objective of program

- Understanding the entrepreneurial opportunities and challenges in pharmaceutical sector.
- Exploring the principles and strategies for starting a successful pharmaceutical start-up.
- Gaining insights into the regulatory frameworks and legal considerations specific to the pharmaceutical industry.
- Learning about product development and innovation in the pharma sector.
- Discovering effective marketing and sales strategies for pharmaceutical products.
- Understanding the financial aspects and funding options for pharmaceutical start-ups.
- Exploring case studies of successful pharmaceutical entrepreneurs and their journeys.
- Networking and connecting with industry experts and fellow aspiring entrepreneurs.

Topics Covered:

- Regulatory frameworks and legal considerations for pharmaceutical start-ups.
- Product development and innovation strategies in the pharmaceutical industry.
- Marketing and sales strategies for pharmaceutical products.
- Financial aspects and funding options for pharmaceutical start-ups.
- Intellectual property protection and licensing in the pharma sector.
- Case studies of successful pharmaceutical start-ups and their growth stories.
- Building a team and managing human resources in a pharmaceutical start-up.
- Networking and connecting with industry experts and potential collaborators.
