PROGRAMME REPORT

Name of the Programme: A One Week Faculty Development Program on "Targeted Delivery and Green Synthesized Nanoparticles and their improvement".

Date: 14-12-2020 to 19-12-2020

Resource Person Details:

Name: Mr.Dr.B.NarasimhaRao

Designation: Associate Professor.

Department: Pharmaceutics.

Organization: P.Rami Reddy Memorial college of Pharmacy, Kadapa

Email ID: simham1985@gmail.com

Contact Number: 9160592004

Objective:

Anurag Pharmacy College had successfully organised A One Week Faculty Development Programme on One Week Faculty Development Programme on "Targeted Delivery and Green Synthesized Nanoparticles and their improvement". The main objective of the programme is to synthesize Nanoparticles by novel green techniques and different types of targeted drug delivery systems and their improvement, facing challenges and recent advancements in drug delivery systems in the current era.

Topics covered:

- Green synthesis of Nanoparticles aims at minimizing generated waste, implementing sustainable process.
- Green synthesis of metal and metal oxide nano particles had been a highly attractive research area in the last decade
- Several natural extracts have been employed as efficient resources for the synthesis of materials among them plant extracts has been proved to possess high efficiency as stabilizing and reducing agents for the synthesis of controlled materials

Outcome of the Programme: An open feedback was collected from the faculty members and they convey that the programme was extremely helpful for covering the topics related to the information which is useful to mainly is focusing on eco-friendly synthesis of Nanoparticles as targeted drug delivery agents to improving the drug actions reducing the toxic effects and adverse effects of drugs also eco-friendly techniques that are not harmful to our environment.

Registration
 Registration fee is Rs.350/- including kit, e- souvenir, and participation certificate.

Objective
 To encourage the students of Pharmacy to participate and present on latest happenings in Pharmaceutical Education and Research. It creates an academic and scientific platform for students to exchange their ideas and to prove their identity in the global pharmacy field.

Eligibility
 Students of B. Pharm., M. Pharm., Pharm. D. and Research Scholars.
Contact Numbers

A one week
 faculty Development Programme on
 “Targeted Delivery and Green Synthesized
 Nanoparticles and their Improvement”

Date: 14-12-2020 to 19-12-2020

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- The programme was extremely helpful for covering the topics related to the information which is useful to mainly focusing on eco-friendly synthesis of Nanoparticles as targeted drug delivery agents to improving the drug actions reducing the toxic effects and adverse effects of drugs also eco friendly techniques that are not harmful to our environment.
- Nanotechnology, an innovative sector being an indispensable part of healthcare and research, has in-depth and extensive applications. Nano-compounds have been promising antimicrobial agents, anti-cancerous mediators, vehicles for drug delivery, formulations for functional foods, identification of pathogens, food and drug packaging industry, and many more.
- Green synthesis of Nanoparticles using living cells through biological pathways is more efficient techniques and yields a higher mass when compared to other related methods.

Resource Person

Dr. B. Narasimha Rao
Associate Professor
Department of Pharmaceutics
Address: P. Ramreddy memorial college of Pharmacy, Kadapa

Last Date for registration: 11/12/2020

Objectives of the program:

- The main objective of the programme is to synthesize Nanoparticles by novel green techniques and different types of targeted drug delivery systems and their improvement, facing challenges and recent advancements in drug delivery systems in the current era.
- To optimizing crops/human protection and advance efforts to achieve global food security and human longevity should be a priority.
- To the closing of gaps and need to overcome future challenges across the capabilities of these NPs in biotechnology need to be strongly emphasized.

Topics to be covered:

- Green synthesis of Nanoparticles aims at minimizing generated waste, implementing sustainable process.
- Green synthesis of metal and metal oxide nano particles had been a highly attractive research area in the last decade
- Several natural extracts have been employed as efficient resources for the synthesis of materials among them plant extracts has been proved to possess high efficiency as stabilizing and reducing agents for the synthesis of controlled materials

PROGRAMME REPORT

Name of the Programme: A One Week Faculty Development Program on “Role of Pharmacognosy in Various Systems of Medicines”.

Date: 15-02-2021 to 20-02-2021

Resource Person Details:

Name: Dr.CH K V L S N ANJANA MALE

Designation: Professor.

Department: Pharmacognosy

Organization: Nimra College of Pharmacy, Mangalagiri.

Email ID: anjana.male@gmail.com

Contact Number: 9491719011

Objective:

Anurag Pharmacy College had successfully organised A One Week Faculty Development Programme on “Role of Pharmacognosy in Various Systems of Medicines”. The main objective of the programme is to provide safe and effective drugs in combination with the modern system of medicine. It has knowledge about the safe use of herbal drugs including their side effects, toxicity, drug interaction, etc thereby increasing effectiveness in modern medicine

Topics covered:

- Role of Pharmacognosy in Allopathy (Modern medicine)
- Role of Pharmacognosy in Ayurveda
- Role of Pharmacognosy in Unani System of Medicine
- Role of Pharmacognosy in Siddha System of Medicine
- Role of Pharmacognosy in Homeopathy

Outcome of the Programme: An open feedback was collected from the faculty members and they convey that the programme was extremely helpful for covering the topics related to the information which is useful In a nutshell, pharmacognosy plays an important role in the production of new plant and herbal drugs and is practised in all the systems of medicine in India.

Registration

Registration fee is Rs.350/- including kit, e-souvenir, and participation certificate.

Objective

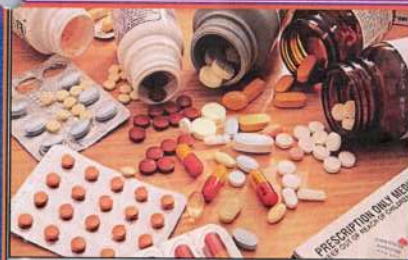

To encourage the students of Pharmacy to participate and present on latest happenings in Pharmaceutical Education and Research. It creates an academic and scientific platform for students to exchange their ideas and to prove their identity in the global pharmacy field.

Eligibility

Students of B. Pharm., M. Pharm., Pharm. D. and Research Scholars.

A one week

faculty development programme on
"Role of Pharmacognosy in Various Systems
of Medicines"

Dates : 15-02-2021 to 20-02-2021

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D. This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- The programme was extremely helpful for covering the topics related to the information which is useful in a nutshell, Pharmacognosy plays an important role in the production of new plant and herbal drugs and is practiced in all the systems of medicine in India.

- Pharmacognosy deals with the natural drugs obtained from organisms such as most plants, microbes, and animals. Up to date, many important drugs including morphine, atropine, galanthamine, etc. have originated from natural sources which continue to be good model molecules in drug discovery

- When the term "natural product" is mentioned, they can be the organism itself (plant, animal, and microorganism), any part of an organism (a leaf or flower of a plant, an isolated gland or other organ of an animal), and extract or pure substances. Doubtlessly, plants are prolific sources of new bioactive chemicals such as atropin, ephedrine, morphine, caffeine, salicylic acid, digoxin, taxol, galantamine, vincristine, colchicine, etc

Resource Person

Dr.CH K V L S N ANJANA MALE

Professor

Department of Pharmacognosy

Nimra College of Pharmacy, Mangalagiri.

Last Date for registration: 11/02/2021

Objectives of the program:

- To provide safe and effective drugs in combination with the modern system of medicine.
- To apply the knowledge about the safe use of herbal drugs including their side effects, toxicity, drug interaction, etc there by increasing effectiveness in modern medicine
- To introduce production of new plant and herbal drugs and is practiced in all the systems of medicine in India.
- To provide link between pharmacology and medicinal chemistry

Topics to be covered:

- Pharmacognosy in Allopathy (Modern medicine)
- Pharmacognosy in Ayurveda
- Pharmacognosy in Unani System of Medicine
- Pharmacognosy in Siddha System of Medicine
- Pharmacognosy in Homeopathy
- Pharmacognosy in Chinese Medicine System.
