### A Two Week Certificate program

on

### "INNOVATIONS IN CANCER TREATMENT"

Dates : 17-02-2022 TO 05-03-2022

**About the college:**

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D. This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

**About the Department:**

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

**About the Programme:**

- New approaches to tame the immune system in the fight against cancer are getting us closer to a future where cancer becomes a curable disease. Personalized vaccines, cell therapy, gene editing and microbiome treatments are four technologies that will change the way cancer is treated.
- Surgery: An operation where doctors cut out tissue with cancer cells.
- Chemotherapy: Special medicines that shrink or kill cancer cells that we cannot see.
- Radiation therapy: Using high-energy rays (similar to X-rays) to kill cancer cells.
- Doxorubicin is considered one of the strongest chemotherapy drugs for breast cancer ever invented. It can kill cancer cells at every point in their life cycle, and it's used to treat a wide variety of cancers, not just breast cancer. Doxorubicin is also known as "The Red Devil" because it is a clear bright red color.

**Resource Person:**

Name: A. HEMANTH KUMAR  
Designation: Assistant professor  
Department: Pharmacy practice.  
Address: Anurag Pharmacy College

**Last date to Registration:** 11-02-2022.

**Objectives of the program:**

- To achieve cure of cancer allowing to live a normal life span.
- To develop best chemotherapy works against the cancer.
- To develop safe and effective methods to prevent, detect, diagnose and treat and cure the collections of disease.
- The primary goal of treatment would be to cure or remove the disease completely, allowing you to live a normal lifespan. Cancer treatments would be given to get you into remission, which can either be partial or complete. Complete remission means all evidence of your cancer has disappeared

**Topics to be covered:**

- It can help It gives positive and functional identity.
- to prevent reoccurrence or second cancer.
- It gives the idea about follow-up care after cancer treatment

## PROGRAM REPORT

**Name of the Event:** A Two Week Certificate Program on “LATEST TECHNOLOGIES IN PHARMA INDUSTRY”

**Date:** 10-01-2022 TO 02-02-2022

**Resource Person:** N. PHANI KUMAR

Asst Professor, Dept of. Pharmaceutics

Anurag Pharmacy College

Contact number: 9951273438

**Name of coordinator:** A. ASHOK

Department of pharmaceutics.

**Number of Students attended:** 50

**VENUE:** Auditorium, Anurag Pharmacy College

Anurag Pharmacy College, Ananthagiri, organized a certificate program on “LATEST TECHNOLOGIES IN PHARMA INDUSTRY”. B Pharmacy students by the resource person N. Phani kumar on LTPI. Discus the basic and advanced technologies in product manufacturing and quality aspects. Totally 50 students were participated in this training program and after the completion of the program they were able to understand the following objectives and leaning outcomes

**Objectives:**

1. To enhance manufacturing capacity.
2. To protecting the public must be primary objective any company or industry dealing with pharmaceuticals.
3. To design a quality product and its manufacturing process to consistently deliver the intended performance of the product.
4. To promote the drug research in all its branches including manufacturing of drug in India.

**Learning outcomes:**

1. To learns the basic issues in the pharmaceutical industry.
2. to evaluate the basic concepts in the field of drug delivery system
3. Manufacturers can create improved drugs and medicines by understanding their effectiveness in specific individuals.

This course was very useful to the students and their feedback is positive. The management and Dr. M. Chinna Eswaraiyah, Principal of Anurag Pharmacy College thanked the resource person and participants for making the program successful.

**A Two Week Certificate program**  
on  
**“INNOVATION IN LEARNING AND TEACHING OF PHARMACEUTICALS”**  
**18-11-2021 to 06-12-2021**

#### **About the college:**

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

#### **About the Department:**

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

#### **About the Programme:**

- Introducing more technology in the classroom to create a blended classroom where students experience technology as they would in the real world. Providing greater ways to facilitate clearer and better communication between school districts' parents with powerful video tools.
- Personalized Learning. Personalized learning customizes what, when, and how each student is taught. ...
- Project-Based Learning. ...
- Jigsaws. ...
- Asking Open-Ended Questions. ...
- Flipping the Classroom. ...
- QR Codes. ...
- Inquiry-Based Learning. ...
- Culturally Inclusive Teaching.
- A drug can be considered a pharmaceutical innovation only if it meets otherwise unmet or inadequately met health care needs. This will depend on its efficacy, safety and convenience of use relative to the technologies available when it is introduced.

#### **Resource Person:**

Name: T. PRAVEEN KUMAR  
Designation: Assistant professor  
Department: Pharmaceutics.  
Address: Anurag Pharmacy College.

**Last date to Registration:** 15-11-2021.

#### **Objectives of the program:**

1. To access new technology.
2. To improve attraction between teachers and students.
3. To encourage the research skills and learning capacity.
4. To improve time bond results oriented achievements.
5. Embracing innovation in education promotes critical thinking, a sense of adventure, and an openness to adapt that will serve our students in the classroom. It will provide them with the necessary tools to tackle the challenges of their future workplace and give them the confidence and skills to continue to adapt.

#### **Topics to be covered:**

1. The primary goal of this program development of self-directed learners who are flexible with their knowledge and learn.
2. Create more engaging learning environments.
3. To develop the process of proactively introducing new teaching strategies and methods in class room.

The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

#### **About the Programme:**

- The course will give knowledge about investing in the development and manufacturing of drugs, pharmaentrepreneurs can help to increase the supply of drugs and reduce the likelihood of shortages. This can lead to improved access to essential medications for patients, particularly those with chronic or life-threatening conditions.
- Entrepreneurship in the pharmaceutical industry can drive innovation and the development of new drugs. By investing in research and development, pharmaentrepreneurs can create new treatments that are more effective and have fewer side effects than existing drugs.
- The pharmaceutical industry is a significant contributor to the global economy, and entrepreneurship in this industry can lead to economic growth. By creating new businesses and jobs, pharmaentrepreneurs can contribute to local and national economies.

#### **Resource Person:**

Name: Mrs. D. SHYAMALA  
Designation: Assistant professor  
Department: Pharmaceutical analysis.  
Address: Anurag Pharmacy College

**: Last date to Registration: 06-10-2021**

#### **Objectives of the program:**

- It aims to deliver high level research characterized by scientific rigor and the potential to advance the field.
- Bio synthesis and biocatalysts of natural products.
- Quality control of herbal medicines.
- Pharmaceutical Biology aims to deliver high-level research characterized by scientific rigor and the potential to advance the field.

Papers may cover any facet of natural product research related to pharmaceutical biology, as well as agents or topics related to natural product drugs (e.g., semi-synthetic derivatives).

#### **Topics to be covered:**

- Natural products structural and activity relationship studies. This program helps the students to learn more about the discovery of the novel bio active chemicals from the natural source
- Structural modification of bio active natural products
- Pharmacology and pharmacokinetics, toxicity and clinical studies of natural products and herbal medicines.

## PROGRAM REPORT

**Name of the Event:** A Two Week Certificate Program on “**PHARMACEUTICAL BIOLOGY**”

**Date:** 09-10-2021 TO 05-11-2021

**Resource Person:** D. SHYAMALA

Asst Professor, Dept of. Pharmaceutical analysis

Anurag Pharmacy College

Contact number: 9515216437

**Name of coordinator:** V. P. B CHARY,

Department of pharmaceutical analysis.

**Number of Students attended:** 60

**VENUE:** Auditorium, Anurag Pharmacy College

Anurag Pharmacy College, Ananthagiri, organized a certificate program on “**PHARMACEUTICAL BIOLOGY**” to B Pharmacy students by the resource person Shyamala.D on **PB**, Discovery of the novel bio active chemicals from natural source. Totally 60 students were participated in this training program and after the completion of the program they were able to understand the following objectives and leaning outcomes

**Objectives:**

1. It aims to deliver high level research characterized by scientific rigor and the potential to advance the field.
2. Bio synthesis and biocatalysts of natural products.
3. Quality control of herbal medicines.

**Learning outcomes:**

1. This program helps the students to learn more about the discovery of the novel bio active chemicals from the natural source
2. Structural modification of bio active natural products structural and activity relationship studies.
3. Pharmacology and pharmacokinetics, toxicity and clinical studies of natural products and herbal medicines.

This course was very useful to the students and their feedback is positive. The management and Dr. M. Chinna Eswaraiah, Principal of Anurag Pharmacy College thanked the resource person and participants for making the program successful.
