## ANURAG PHARMACY COLLEGE

(Approved by PCI & AICTE, New Delhi & Affiliated to JNTUH)  
Ananthagiri (V), Kodad (M), Nalgonda (Dt), T.S. - 508 206  
[www.anuragpharmacy.ac.in](http://www.anuragpharmacy.ac.in)

### A Two Week Certificate program on "PREVENTION OF NON COMMUNICABLE DISEASES"

Dates : 18-04-2019 TO 04-05-2019

#### **About the college:**

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

#### **About the Department:**

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

#### **About the Programme:**

- PONCD is to reduce the exposure of the population to manageable risk factors..
- Healthy Diet – Avoiding canned food and excessive salt can prevent hypertension. ...
- Regular Exercise – Approximately 1.6 million global deaths are attributed to a sedentary lifestyle. ...
- Adequate Sleep – 6 to 8 hours of sound sleep is a must for a healthy body to function.
- Many NCDs can be prevented by reducing common risk factors such as tobacco use, harmful alcohol use, physical inactivity and eating unhealthy diets.
- Most noncommunicable diseases are the result of four particular behaviours (tobacco use, physical inactivity, unhealthy diet, and the harmful use of alcohol) that lead to four key metabolic/physiological changes (raised blood pressure, overweight/obesity, raised blood glucose and raised cholesterol).

#### **•Resource Person:**

Name: G.ROJA

Designation: Assistant professor

Department: Pharmacology.

Address: Anurag Pharmacy College.

**Last date to Registration: 16-04-2019.**

#### **Objectives of the program:**

- To support the formation of healthy environment, healthy behavior in the population.
- To prevent and control chronic diseases like diabetes, cancer and hypertension.
- Impact of life style modifications to prevent the non-communicable diseases.
- Reduce the major modifiable risk factors, such as tobacco use, harmful use of alcohol, unhealthy diets, and physical inactivity. Develop and implement effective legal frameworks. Orient health systems through people-centred health care and universal health coverage. Promote high-quality research and development.
- The objective of communicable disease control is ultimately to stop transmission of the causative agent, so that no new individuals will get infected and be at risk of developing disease.

#### **Topics to be covered:**

- Develop and implement effective legal frame works.
- Orient healthy systems through people center health care and universal health coverage.
- Promote high quality research and development

## PROGRAM REPORT

**Name of the Event:** A Two Week Certificate Program on “**DIVISIONS OF COSMETIC SCIENCE**”

**Date:** 08-04-2019 to 25-04-2019

**Resource Person:** Dr. S. Jaya

Dept of. Pharmaceutics

Anurag Pharmacy College

Contact number: 9908778846.

**Name of coordinator:** D. Chinna babu

Asst Professor, Dept of Pharmaceutics

**Number of Students attended:** 92

**VENUE:** Auditorium, Anurag Pharmacy College

Anurag Pharmacy College, Ananthagiri, organized a certificate program on “**DIVISIONS OF COSMETIC SCIENCE**” for B Pharm students by the resource person Dr. S. Jaya on **DOCS**. The ability to contribute to the new and modern developments with reduce the impact on the environment. Totally 92 students were participated in this training program and after the completion of the program they were able to understand the fallowing objectives and leaning outcomes.

**Objectives:**

1. Teaching and learning techniques which place emphasis on didactic learning.
2. Curriculum which provides a broader range of subjects to facilitate the development of skills, abilities pursuit of interest and promotion of carrier development.
3. An understanding of methods to evaluate new and existing products for consumer acceptance performance and stability.
4. The ability to prepare written easements or proposals and oral present and defend them.

**Learning outcomes:**

1. Understand the general concepts of human nutrition that pramotes good health and the factors that modify normal neutrition such as pysical and emotional stress diting and food prejudice.
2. Which effectivly with a perticular audiance for a specific purpose and demonstrate abilty to read and comprehend written english in the business environment.
3. To give an oral presentation and partispete the in observe and summarice thr deliberations of meeting and seminars .

This course was very useful to the students and their feedback is positive. The management and Dr. M. Chinna Eswaraiah, Principal of Anurag Pharmacy College thanked the resource person and participants for making the program successful.

**A Two Week Certificate program**

**on**

**"RELATIONSHIP BETWEEN  
DOCTORS & PHARMACEUTICAL INDUSTRY"**

**Dates :18-01-2019 TO 02-02-2019**

**About the college:**

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

**About the Department:**

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

**About the Programme:**

- If we have learned anything from a decade's worth of litigation, it is that the pharmaceutical industry pays the vast majority of physicians for one reason: to market their drugs.
- And why would we have ever thought otherwise?
- Pharma companies are not charitable organizations.
- They are not in the business of education, or philanthropy, or poverty relief, or even—let's be honest—health care.
- Their business is to manufacture and sell drugs.
- Unlike most any other businesses, however, pharmaceutical companies must go through an intermediary in order to sell their product.
- This places physicians in a position of singular trust.
- They stand between corporations and the vulnerable, sometimes desperate patients that those corporations call "customers."

**Resource Person:**

Mrs.M. VANI  
Assistant professor  
Pharmaceutical chemistry.  
Anurag Pharmacy College.

**Last date to Registration:** 09-01-2019

**Objectives of the program:**

1. The relationship between doctors and pharmaceutical industry is prone to conflicts.
2. Analysis of their relationship reveals that doctors are likely to compromise ethics I their profession.
3. Doctors are influenced by pharmaceutical companies
- 4.The aim of quality control in the pharmaceutical industry is to verify and test the medicine at various stages of production, to ensure every product is of the highest quality.
- 5.Quality control also involves identifying any defects in products and fixing these problems with corrective techniques and measures.

**Topics to be covered:**

1. Pharmaceutical companies easily influence drug prescriptions.
2. Doctors uphold ethics in their drug prescriptions by avoiding any sources of influence from pharmaceutical industry.
3. Doctors having patients interest as first priority.

It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

**About the Programme:**

- Obesity occurs when a child is significantly over the ideal weight for her height. Like adults, children become obese when they eat more calories than they use.
- Obesity in children is determined by using a body mass index (BMI) percentile. BMI is a measure of weight in relation to height.
- Obesity can increase a child's risk for serious and chronic medical problems, such as type 2 diabetes, high blood pressure high cholesterol, orthopedic problems, and liver disease.
- Researchers continue to search for ways to treat obesity, but taking preventive measures has proven to be the best method so far. It is also important to maintain an active lifestyle by getting at least an hour of physical activity a day.

**Resource Person:**

Name: Mr. M Prasad

Designation: Assistant professor

Department: Pharmacy practice.

Address: Anurag Pharmacy College.

Last date to Registration: 27-11-2018.

**Objectives of the program:**

1. The goal for children who are overweight to reduce the rate of weight gain while allowing the normal growth and development.
2. To monitor the child meals outside the home.
3. To maintain the ideal body weight by using the body mass index(BMI)
4. Changing lifestyle and dietary patterns have contributed to increasing obesity rates in children.
5. Lifestyle and diet changes can help children to maintain a healthy weight. Obesity can result in serious health problems in childhood and later life.
6. Children who are obese tend to become obese adults.

**Topics to be covered:**

1. This Program provide greater evidence that increased weight status in children.
2. To learn about life style issues and genetic hormonal factors.
3. Individual or group therapy focused on changing behavior and confronting feelings related to weight.

It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

**About the Programme:**

Cancer is a leading cause of death and a global health burden.

Cancer is a disease characterized by uncontrolled cell proliferation that spreads from an initial focal point to other parts of the body to cause death. For these reasons, it is key to ensure earlier detection and treatment of cancers to reduce disease spread and mortalities.

Amongst the widely used strategies, today in cancer research is nanotechnology. Nanotechnology has led to several promising results with its applications in the diagnosis and treatment of cancer, including drug delivery<sup>2</sup>, gene therapy, detection and diagnosis, drug carriage, biomarker mapping, targeted therapy, and molecular imaging.

**Resource Person:**

Name: R. Naga swetha vasuki

Designation: Assistant professor

Department: Pharmacology.

Address: Anurag Pharmacy College

**Last date to Registration: 07-09-2018.**

**Objectives of the program:**

1. Identify and describe review Nano technology in cancer treatment information system.
2. Examine legal and ethical issues related to the use of Nano technology in cancer treatment.
3. Describe functions of the informatics nurse working with Nano technology in cancer treatment.
4. The development of nanotechnology is based on the usage of small molecular structures and particles as tools for delivering drugs.
5. Nano-carriers such as liposomes, micelles, dendritic macromolecules, quantum dots, and carbon nanotubes have been widely used in cancer treatment.

**Topics to be covered:**

1. The hospital pharmacy is indispensable in the treatment of patients.
2. To provide and share guidelines between intervention and control groups.
3. To describe the role of Nano prescription medicines in patient care management.

## PROGRAM REPORT

**Name of the Event:** A Two Week Certificate Program on “**CANCER TREATMENT USING NANO TECHNOLOGY**”.

**Date:** 13-09- 2018 to 03-10-2018

**Resource Person:** R. Naga swetha vasuki

Asst Professor, Dept of. Pharmacology

Anurag Pharmacy College

Contact number: 8886155206.

**Name of coordinator:** Mr.Md. Habibur Rehman

Dept of. Pharmacology

**Number of Students attended:** 65

**VENUE:** Auditorium, Anurag Pharmacy College

Anurag Pharmacy College, Ananthagiri, organized a certificate program on “**Cancer Treatment Using Nano Technology**” for B Pharmacy students by the resource person **Naga swetha Vasuki. R** on CTUNT, nanotechnology can provide rapid and sensitive detection of cancer related molecules; enabling scientists detect molecular changes that occur in small percentage of cells. Totally 65 students were participated in this training program and after the completion of the program they were able to understand the fallowing objectives and leaning outcomes.

**Objectives:**

1. Identify and describe review Nano technology in cancer treatment information system.
2. Examine legal and ethical issues related to the use of Nano technology in cancer treatment.
3. Describe functions of the informatics nurse working with Nano technology in cancer treatment.

**Learning outcomes:**

1. The hospital pharmacy is indispensable in the treatment of patients.
2. To provide and share guidelines between intervention and control groups
3. To describe the role of Nano prescription medicines in patient care management.

This course was very useful to the students and their feedback is positive. The management and Dr. M. Chinna Eswaraiah, Principal of Anurag Pharmacy College thanked the resource person and participants for making the program successful.

### Registration

Registration fee is Rs.350/- including kit, e- souvenir, and participation certificate.

### Objective

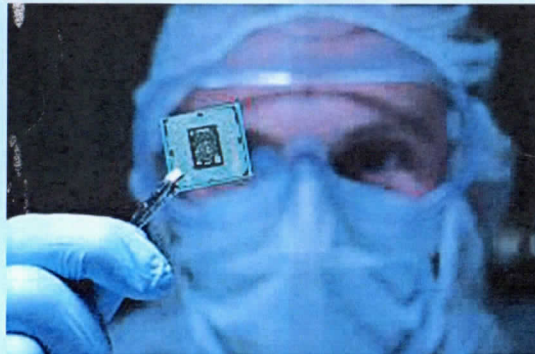

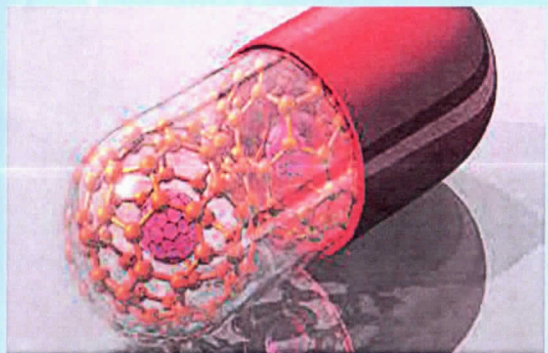

To encourage the students of Pharmacy to participate and present on latest happenings in Pharmaceutical Education and Research. It creates an academic and scientific platform for students to exchange their ideas and to prove their identity in the global pharmacy field.

### Eligibility

Students of B. Pharm., M. Pharm., Pharm. D. and Research Scholars.

### Contact Numbers

(Approved by PCI, New Delhi & Affiliated to JNTUH)  
Ananthagiri (V), Kodad (M), Nalgonda (Dt.), T.S. - 508 206  
[www.anuragpharmacy.ac.in](http://www.anuragpharmacy.ac.in)

### A TWO WEEK CERTIFICATE PROGRAM ON "NANO TECHNOLOGY AND ITS PLAN IN MODERN MEDICINE"

DATES :09-08-2018 TO 28-08-2018

**About the college:**

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

**About the Department:**

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

**About the Programme:**

- Nanotechnology refers to the design and use of technologies at the 1- to 100-nm scale. The field of nanomedicine refers to applying nanotechnology to the realm of medicine for improving health.
- Nanometre-sized structures, materials and particles are central to advances in nanomedicine.
- They have unique physical, chemical or biological properties, providing new building blocks for the engineering of devices and systems for the diagnosis and treatment of diseases.
- For example, quantum dots are fluorescent semiconductor nanoparticles with tunable emissions by changing size, shape and chemical composition. They are used as probes for in vitro and in vivo microscopy by coating their surface with biocompatible polymers and antibodies.

**•Resource Person:**

Name: Ms. N. Saritha,

Designation: Assistant professor

Department: Pharmaceutics

Address: Anurag Pharmacy College.

**Last date to Registration: 04-08-2018**

**Objectives of the program:**

1. To improve the ability to target specific cell or tissues.
2. It helps to detect some diseases through Nano biotic sensors.
3. Understand the specialized method to manufacture Nano scale devices and systems
4. Nanotech detectors for heart attack.
5. Nanochips to check plaque in arteries.
6. Nanocarriers for eye surgery, chemotherapy etc.
7. Diabetic pads for regulating blood sugar levels.
8. Nanoparticles for drug delivery to the brain for therapeutic treatment of neurological disorders.
9. Nanosponges are polymer nanoparticles coated with a red blood cell membrane, and can be used for absorbing toxins and removing them from the bloodstream.
10. NanoFlares are used for detection of cancer cells in the bloodstream.

**Topics to be covered:**

1. Describe effects of Nano scale sizes in devices.
2. Describe manufacturing technologies at the Nano scale.
3. Discuss specific Nano scale devices their use and applications.
4. Identify opportunities for Nano scaling devices.

Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

### About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

### About the Programme

- Academy of Hospital Administration (AHA) is an autonomous professional organization consisting of highly qualified and experienced Experts and faculty in hospital & health systems operations management, public health and multispecialty facilities planning & architectural designing doyens, Quality management in health care delivery systems (NABH, NQAS & NABL) experts, public health strategists etc.
- AHA has a large panel of academia, experts in Bio-Medical Engineers, Health IT professionals, HTA, Telemedicine, Medical & Wellness tourism, Bio-Medical Waste Management, Lean & Six Sigma.

### Resource Person:

Name: Mrs. S Jaya,

Designation: Assistant professor

Department: Pharmaceutics

Address: Anurag Pharmacy College.

**Last date to Registration: 05-07-2018**

### Objectives of the program::

1. Create seamless digital experience for patients.
2. Make healthcare branding consistent.
3. Build a strong and responsive website for organization.
4. Connect with patients and clients across multiple channels.
5. To promote awareness of health care among all sections of the Indian people.
6. To promote awareness among functionaries involved in Health and Hospital Management.
7. To promote research in the field of Health and Hospital Management. in order to improve the efficiency of Health Care delivery Systems.
8. To promote a forum for the exchange of ideas and information among health and hospital planners, academicians, administrators, various statutory bodies and the general public for the improvement of Hospital and Health Care delivery Systems.

### Topics to be covered:

1. Economic evaluation in health care.
2. Understand the management tools and techniques used to design and manage successful organization.
3. Aware people and clients to maintain good health.
