A Program on Managing inventory and supply chain logistics in pharmacy business

4th-April-2019

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

The course will give knowledge about the managing inventory and supply chain logistics in pharmacy business and gained knowledge on following areas:

- Enhanced understanding of inventory management principles and their application in the pharmacy business.
- Ability to implement inventory forecasting techniques to ensure optimal stock levels.
- Improved knowledge of inventory control methods and cost-saving strategies.
- Insights into building strong supplier relationships and efficient procurement practices.
- Proficiency in warehouse management and layout optimization.
- Familiarity with key performance metrics for tracking inventory and supply chain performance.
- Increased awareness of supply chain logistics and its impact on overall business operations.
- Strategies for efficient order fulfillment and timely delivery to customers.

Resource Person:

Dr. C. Raja Ram,
Professor, Department of Pharmacology
rajaram212121@gmail.com
P.Rami Reddy Memorial College of Pharmacy,
Kadapa, Andhra Pradesh.

Last date to Registration: 01/04/2019

Objectives of the program:

- Understanding the importance of inventory management in pharmacy businesses.
- Exploring the techniques for optimizing inventory levels and reducing costs.
- Gaining insights into the fundamentals of supply chain logistics and its impact on pharmacy operations.
- Learning how to streamline procurement processes and establish effective supplier relationships.
- Discovering strategies to ensure product availability, minimize stock outs, and improve customer satisfaction.
- Exploring the role of technology and automation in inventory management and supply chain logistics.

Topics to be covered:

- Inventory management in the pharmacy business.
- Inventory forecasting and demand planning techniques.
- Inventory control methods and cost optimization.
- Efficient procurement and supplier management.
- Warehouse management and layout optimization.
- Supply chain logistics and its role in the pharmacy industry.
- The impact of technology on inventory .

**A Seminar on
Pharmacy Education for
Industry and Research Needs**

06th-March 2019

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- Enhanced understanding of the knowledge and skills required for success in pharmaceutical industry and research roles.
- Proficiency in various industry and research-specific topics and concepts.
- Development of critical thinking skills and problem-solving abilities in the context of industry and research settings.
- Insight into the regulatory and ethical considerations in pharmaceutical industry and research.
- Networking opportunities and collaborations with professionals in the pharmaceutical industry and research community.
- Ability to contribute to the field through the application of knowledge and skills in industry and research roles.
- Preparation for pursuing further academic and professional opportunities in the pharmaceutical industry or research.
- Guidance and support in navigating career paths and achieving professional success.

Resource Person:

Dr. CH. Venkata Suresh,
M. Pharm, Ph.D
Professor & HOD of Analysis,
Department of Pharmaceutical Analysis,
Nalanda College of Pharmacy, Nalgonda,
Telangana,

Last date to Registration: 05/02/2019

Objectives of the program:

- To provide guidance and support to individuals interested in pursuing careers in the pharmaceutical industry or research settings.
- To enhance participants' understanding of the knowledge and skills required for success in pharmaceutical industry and research roles.
- To explore various aspects of pharmacy education that are relevant to industry and research needs.
- To foster critical thinking skills and analytical abilities in solving industry and research-related problems.
- To understand the regulatory and ethical considerations in pharmaceutical industry and research.
- To promote collaboration and networking opportunities within the field of pharmaceutical industry and research.

Topics to be covered:

- Introduction to Pharmaceutical Industry and Research
- Industry and Research-Specific Knowledge
- Skills for Pharmaceutical Industry and Research
- Advanced Pharmaceutical Sciences
- Quality Assurance and Good Manufacturing Practices (GMP)
- Ethical and Regulatory Considerations
- Leadership and Teamwork

CERTIFICATE OF PARTICIPATION

This is to certify that Sindhu M..... has participated as delegate in "A Seminar on Pharmacy Education for Industry and Research Needs" held on 6th March 2019 at Anurag Pharmacy College, Ananthagiri, Kodad.

Mr. K. Raveendra Babu,
Convenor

Dr. M. Chinnaeswaraiyah
Principal
PRINCIPAL
Anurag Pharmacy College
Ananthagiri, KODAD, Suryapet.

Registration

Registration fee is Rs.350/- including kit, e- souvenir, and participation certificate.

Objective

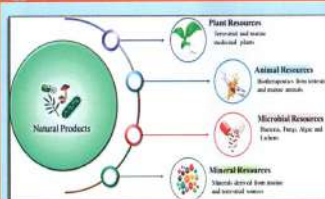

To encourage the students of Pharmacy to participate and present on latest happenings in Pharmaceutical Education and Research. It creates an academic and scientific platform for students to exchange their ideas and to prove their identity in the global pharmacy field.

Eligibility

Students of B. Pharm., M. Pharm., Pharm. D. and Research Scholars.

Contact Numbers

**A one-day Seminar on
Emerging needs and Regulations on
Phytopharmaceuticals research
22nd Feb 2019**

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- Enhanced understanding of the emerging needs and regulations in phytopharmaceuticals research.
- Proficiency in various research methodologies and techniques used in the field.
- Development of critical thinking skills to evaluate the safety and efficacy of phytopharmaceutical products.
- Insight into the impact of regulations and quality standards on the development and commercialization of phytopharmaceuticals.
- Networking opportunities and collaborations with professionals in the field of phytopharmaceuticals research.
- Ability to contribute to the field through the design and implementation of high-quality research studies.
- Knowledge of regulatory compliance requirements and adherence to ethical standards in phytopharmaceutical research.
- Preparation for pursuing further academic and professional opportunities in phytopharmaceuticals research.

Resource Person:

Mr. A. Venkateswara Rao,
M. Pharm., (Ph.D.)
Assoc. Professor,
Department of Pharmacognosy,
Pydah College of Pharmacy, East Godavari,
Andhra Pradesh.

Last date to Registration: 21/02/2019

Objectives of the program:

- To provide guidance and support to individuals interested in conducting research on phytopharmaceuticals.
- To enhance participants' understanding of the emerging needs and regulatory landscape in phytopharmaceutical research.
- To explore various research methodologies and approaches used in phytopharmaceuticals research.
- To foster critical thinking skills and analytical abilities in evaluating the safety and efficacy of phytopharmaceutical products.
- To understand the impact of regulations and quality standards on the development and commercialization of phytopharmaceuticals.

Topics to be covered

- Introduction to Phytopharmaceuticals
- Research Methodologies
- Phytochemical Analysis
- Bioactive Compound Identification
- Pharmacological and Toxicological
- Preclinical and Clinical Trials
- Safety, Quality, and Standardization
- Regulatory Frameworks and Compliance
- Pharmacovigilance and Post-Market Surveillance
- Emerging Trends and Future Directions

PROGRAM REPORT

Program Name	A One-day Seminar on Emerging needs and Regulations on Phytopharmaceuticals Research
Resource Person	Mr. A. Venkateswara Rao , Assoc. Professor, Department of Pharmacognosy, Pydah College of Pharmacy, East Godavari, Andhra Pradesh Mail Id: venkat.adapa501@gmail.com Mobile: 94924 61803
Date of Activity	22/02/2019
Organised By	Anurag Pharmacy College
Venue	Anurag Pharmacy College Seminar Hall

Objectives of program

1. To provide guidance and support to individuals interested in conducting research on phytopharmaceuticals.
2. To enhance participants' understanding of the emerging needs and regulatory landscape in phytopharmaceutical research.
3. To explore various research methodologies and approaches used in phytopharmaceuticals research.
4. To foster critical thinking skills and analytical abilities in evaluating the safety and efficacy of phytopharmaceutical products.
5. To understand the impact of regulations and quality standards on the development and commercialization of phytopharmaceuticals.
6. To promote collaboration and networking opportunities within the field of phytopharmaceuticals research.

Topics covered:

1. Introduction to Phytopharmaceuticals and their Importance
2. Research Methodologies in Phytopharmaceuticals Research

ANURAG Pharmacy College

Awareness Program

on

Intellectual Property Rights in Drug Discovery and Development

22nd Jan 2019

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

The course will give knowledge about Intellectual Property Rights in Drug Discovery and Development.

- IPR provides a financial incentive for pharmaceutical companies and researchers to invest time and resources into developing new drugs, leading to the discovery of new medicines and treatments for diseases.
- IPR provides a temporary monopoly for the owner of the intellectual property, which allows them to recoup their research and development costs and generate profits to fund future research.
- IPR encourages the sharing of knowledge and technology between public and private sectors, leading to collaborations and partnerships that can advance drug development and improve public health.
- IPR plays a critical role in regulating the quality and safety of drugs by establishing standards for testing, manufacturing, and distribution.

Resource Person:

Mr. N. Phani Kumar,
M. Pharm,
Assistant Professor,
Department of Pharmaceutics,
Vishnu Institute of Pharmaceutical
Education & Research, Sangareddy,
Telangana

Last date to Registration: 21/01/2019

Objectives of the program:

- To promote innovation, stimulate investment, and ensure that the fruits of research and development are protected and rewarded.
- To provide exclusive rights to inventors, creators, or owners of intellectual property, such as patents, trademarks, and copyrights, to prevent others from using, making, or selling their inventions or creations without permission.
- To incentivize pharmaceutical companies and researchers to invest time and resources into developing new drugs by providing them with a temporary monopoly on their discoveries.
- To encourage technology transfer and knowledge sharing, as well as collaborative research and development between public and private sectors.

Topics to be covered:

- Patents,
- Trademarks,
- Copyrights,
- Trade secrets
- Licensing and technology transfer
- Regulatory considerations
- Ethical considerations
- International aspects

Outcome of the program

Our students and faculty had learned about Intellectual Property Rights in Drug Discovery and Development, and gained knowledge on following areas:

IPR provides a financial incentive for pharmaceutical companies and researchers to invest time and resources into developing new drugs, leading to the discovery of new medicines and treatments for diseases. IPR provides a temporary monopoly for the owner of the intellectual property, which allows them to recoup their research and development costs and generate profits to fund future research.

IPR encourages the sharing of knowledge and technology between public and private sectors, leading to collaborations and partnerships that can advance drug development and improve public health. IPR plays a critical role in regulating the quality and safety of drugs by establishing standards for testing, manufacturing, and distribution.

While IPR can create barriers to access to medicines, it can also facilitate access by incentivizing the development of drugs for neglected diseases and enabling technology transfer to developing countries.

IPR can promote economic growth by stimulating investment and creating jobs in the pharmaceutical industry.

A Work shop on Biostatistics, Research methodology & Manuscript preparation 13th-Dec- 2018

THE WRITING PROCESS

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- Research is a systematic investigation into and study of materials and sources in order to establish facts and reach new conclusions
- Research methodology refers to the techniques used to find and analyze information for a study
- It is essential for scholars, students etc,
- This will help to students, scholars to understand various principles, methods and tools of research
- It creates knowledge in writing research articles
- ability to choose methods appropriate to research aims and objectives
- Explain key research concepts and issues
- Read, comprehend, and explain research articles in their academic discipline.

Resource Person:

Mr. A Bheema Naik,
M. Pharm.,
Asst. Professor,
Department of Pharmaceutical Chemistry,
Nalanda College of Pharmacy, Nalgonda,
Telangana

Last date to Registration: 10/12/2018

Objectives of the program:

- To provide a comprehensive understanding of biostatistics, research methodology, and manuscript preparation.
- To develop the skills necessary for designing, conducting, and analyzing research studies in the field of biostatistics.
- To enhance the ability to critically evaluate research articles and apply appropriate statistical techniques.
- To improve scientific writing and manuscript preparation skills.

Topics to be covered:

- Introduction to biostatistics
- Descriptive statistics
- Probability theory and distributions
- Study design
- Hypothesis testing
- Statistical tests
- Research Methodology
- Study design selection
- Data collection methods
- Ethical considerations in research
- Data analysis plan
- Data interpretation and presentation
- Qualitative research methods
- Mixed methods research
- Systematic reviews and meta-analysis
- Manuscript Preparation
- Ethical considerations

PROGRAM REPORT

Program Name	A Work shop on Biostatistics, Research methodology & Manuscript preparation
Resource Person	Mr. A Bheema Naik , Asst. Professor, Department of Pharmaceutical Chemistry, Nalanda College of Pharmacy, Nalgonda, Telangana Mail Id: bheema.24carats@gmail.com Mobile: 63098 18526
Date of Activity	13/12/2018
Organised By	Anurag Pharmacy College
Venue	Anurag Pharmacy College Auditorium

The objectives of the workshop were:

1. To provide a comprehensive understanding of biostatistics, research methodology, and manuscript preparation.
2. To develop the skills necessary for designing, conducting, and analyzing research studies in the field of biostatistics.
3. To enhance the ability to critically evaluate research articles and apply appropriate statistical techniques.
4. To improve scientific writing and manuscript preparation skills.

Topics covered

Biostatistics:

1. Introduction to biostatistics and its importance in healthcare research.
2. Descriptive statistics: Measures of central tendency, measures of dispersion, graphical representation of data.
3. Probability theory and distributions: Probability concepts, types of probability distributions (normal, binomial, Poisson), sampling distributions.

ANURAG Pharmacy College

(Approved by PCI & AICTE, New Delhi, Affiliated to JNTUH, Hyderabad)
Ananthagiri (V&M), Kodad, Suryapet (Dist), Telangana. 508206
Mobile: 9553122271. Email: principal.pharmacy@anurag.ac.in
Website: www.anuragpharmacy.ac.in

4. Study design: Observational studies, experimental designs, sampling techniques, bias and confounding.
5. Hypothesis testing: Null and alternative hypotheses, types of errors, p-values, confidence intervals.
6. Statistical tests: t-tests, chi-square tests, analysis of variance (ANOVA), non-parametric tests.
7. Regression analysis: Simple linear regression, multiple regression, logistic regression.
8. Survival analysis: Kaplan-Meier estimator, Cox proportional hazards model.
9. Sample size calculation: Power analysis, determination of sample size for different study designs.
10. Data management and statistical software: Data entry, data cleaning, introduction to statistical software (e.g., R, SPSS).

Research Methodology:

1. Research question formulation and hypothesis development.
2. Literature review: Searching and evaluating relevant scientific literature.
3. Study design selection: Cross-sectional, case-control, cohort, experimental, and quasi-experimental designs.
4. Data collection methods: Surveys, interviews, questionnaires, observation, secondary data sources.
5. Ethical considerations in research: Informed consent, confidentiality, institutional review board (IRB) approval.
6. Data analysis plan: Selection of appropriate statistical methods, data management, and quality control.
7. Data interpretation and presentation: Tables, graphs, statistical summaries.
8. Qualitative research methods: Phenomenology, grounded theory, content analysis, thematic analysis.
9. Mixed methods research: Combining qualitative and quantitative approaches.

ANURAG Pharmacy College

Ananthagiri (V&M), Kodad, Suryapet (Dist), Telangana. 508206
Mobile: 9553122271. Email: principal.pharmacy@anurag.ac.in
Website: www.anuragpharmacy.ac.in

10. Systematic reviews and meta-analysis: Study identification, data extraction, statistical synthesis.

Manuscript Preparation:

1. Structure and components of a research manuscript: Introduction, methods, results, discussion, conclusion.
2. Title and abstract writing: Key elements, concise and informative language.
3. Writing the introduction: Background, rationale, research question, and objectives.
4. Methods section: Study design, participants, data collection procedures, statistical analysis.
5. Results section: Presentation of findings using tables, figures, and descriptive statistics.
6. Discussion section: Interpretation of results, comparison with existing literature, limitations, and future directions.
7. Abstracts for conferences and scientific meetings: Summarizing the study in a concise format.
8. Ethical considerations and conflict of interest statement.
9. Citation and referencing: Using appropriate referencing styles (e.g., APA, AMA).
10. Peer review process: Responding to reviewer comments, revisions, and resubmissions.

Outcome of the program

The purpose of the work shop is to introduce students and faculty to gain the knowledge on:

1. Improved understanding of biostatistics concepts and their application in healthcare research.
2. Enhanced knowledge of research methodology, study design, and data collection techniques.
3. Proficiency in performing statistical analyses using appropriate software.
4. Ability to critically evaluate research articles and apply statistical techniques to research problems.
5. Development of scientific writing skills for manuscript preparation.
6. Competence in structuring research manuscripts and presenting findings effectively.
7. Familiarity with ethical considerations in research and publication ethics.
8. Preparedness for peer review

CERTIFICATE OF PARTICIPATION

This is to certify that S. S. Devi. A has participated as delegate in "A Work shop on Biostatistics, Research methodology & Manuscript preparation" held on 13th Dec 2018 at Anurag Pharmacy College, Ananthagiri, Kodad.

Mr. K. Raveendra Babu,
Convenor

Dr. M. Chinnaeswaraiiah
Principal
Anurag Pharmacy College
Ananthagiri, KODAD, Suryapet C.

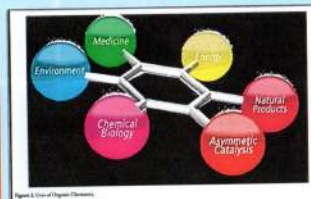

Registration
Registration fee is Rs.300/- including kit, e- souvenir, and participation certificate.

Objective
To encourage the students of Pharmacy to participate and present on latest happenings in Pharmaceutical Education and Research. It creates an academic and scientific platform for students to exchange their ideas and to prove their identity in the global pharmacy field.

Eligibility
Students of B. Pharm., M. Pharm., Pharm. D. and Research Scholars.

Contact Numbers
Dr.A.Hemanth Kumar, Pharm.D- 9912420425
Dr. S. MS Nikhil, Pharm. D - 9866353620

Programme Committee:

Chief Patron
Dr. P. Rajeswar Reddy, M.Sc., Ph.D.
Secretary and Correspondent

Patron
Dr. M. Chinnaeswaraiyah, M. Pharm, Ph.D.

A Seminar on
**Basic Principles and Research Advancements
in Life Sciences and Pharmaceutical Sciences**
06th-Nov-2018

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

1. Enhanced understanding of fundamental principles and concepts in life sciences and pharmaceutical sciences.
2. Proficiency in research methodologies and techniques used in these fields.
3. Development of critical thinking skills to evaluate scientific literature and research findings.
4. Insight into current research advancements and emerging trends in life sciences and pharmaceutical sciences.
5. Networking opportunities and collaborations with professionals in the field of life sciences and pharmaceutical sciences research.
6. Ability to contribute to the field through the design and implementation of high-quality research studies.
7. Preparation for pursuing further academic and professional opportunities in life sciences and pharmaceutical sciences.
8. Understanding of ethical considerations and responsible conduct in research.

Resource Person:

Dr. Praveen Kumar,
M.Tech. Biotechnology Ph.D
Assoc. Professor,
Department of Pharmaceutical Biotechnology,
Mother Teresa Institute of Science and
Technology, Sathupally, Telangana State

Last date to Registration: 03/11/2018

Objectives of the program:

- To provide guidance and support to individuals interested in basic principles and research advancements in life sciences and pharmaceutical sciences.
- To enhance participants' understanding of fundamental concepts and principles in life sciences and pharmaceutical sciences.
- To explore current research advancements and emerging trends in these fields.
- To foster critical thinking and analytical skills for evaluating scientific literature and research findings.
- To understand the interdisciplinary nature of life sciences and pharmaceutical sciences research.

Topics to be covered:

- Introduction to Life Sciences and Pharmaceutical Sciences: Scope, significance, and interdisciplinary nature.
- Basic Principles in Life Sciences: Cell biology, genetics, biochemistry, and molecular biology.
- Basic Principles in Pharmaceutical Sciences: Pharmacology, pharmaceutics, medicinal chemistry, and drug delivery.
- Research Methodologies: Experimental design, data collection and analysis, statistical methods.
- Current Research Advancements: Genomics, proteomics, drug discovery, personalized medicine, nanotechnology.

A Program on Future Entrepreneurs in Pharmacy Practice

5th-Oct- 2018

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- The course will give knowledge about the Future Entrepreneurs in Pharmacy Practice.
- Increased awareness and understanding of entrepreneurship in the pharmacy industry among pharmacy students.
- Development of critical thinking, problem-solving, and decision-making skills that are valuable for entrepreneurship.
- Improved financial management and budgeting skills for pharmacy entrepreneurs.
- Enhanced marketing and branding skills for pharmacy entrepreneurs.
- Understanding of legal and regulatory considerations for starting and running a pharmacy business.
- Development of leadership and team-building skills that are valuable in any career.
- Improved communication skills for pharmacy entrepreneurs.

Resource Person:

Dr.B.NarasimhaRao
Associate Professor
Department of Pharmaceutics
P.Rami Reddy Memorial College of
Pharmacy, Kadapa, Andhra Pradesh.

Last date to Registration: 04/10/2018

Objectives of the program:

- Introducing pharmacy students to the concept of entrepreneurship and how it relates to the pharmacy industry.
- Teaching pharmacy students the skills and knowledge needed to start and run a successful pharmacy business.
- Identifying new opportunities for entrepreneurship in the pharmacy industry, such as specialty pharmacy services, telepharmacy, and medication therapy management.
- Teaching pharmacy students how to develop and implement a business plan for a pharmacy enterprise.
- Helping pharmacy students understand legal and regulatory requirements for starting and running a pharmacy business.
- Providing pharmacy students with leadership and teamwork skills that will be valuable in any career.

Topics to be covered:

- Financial management and budgeting for pharmacy entrepreneurs
- Marketing and branding strategies for pharmacy entrepreneurs
- Legal and regulatory considerations for pharmacy entrepreneurs
- Problem-solving and decision-making skills for pharmacy entrepreneurs
- Risk-taking and decision-making in pharmacy entrepreneurship.

**A Seminar
on
Roadmap for Educational
Research in Pharmacy**

29th-Aug- 2018

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- Enhanced understanding of the importance and relevance of educational research in pharmacy.
- Proficiency in various research methodologies and data collection techniques used in educational research.
- Development of critical thinking skills to evaluate pharmacy education practices and identify areas for improvement.
- Insight into the impact of educational research on curriculum development, teaching methods, and student outcomes.
- Networking opportunities and collaborations with professionals in the field of educational research in pharmacy.
- Ability to contribute to the field through the design and implementation of high-quality educational research studies.
- Understanding of ethical considerations and responsible conduct in educational research.
- Preparation for pursuing further academic and professional opportunities in educational research in pharmacy.

Resource Person:

P. Ujwala Rama Chandra,
M.Pharm.,
Asst. Professor,
Department of Pharmaceutical Analysis,
Pydah College of Pharmacy, East
Godavari, Andhra Pradesh

Last date to Registration: 25/08/2018

Objectives of the program:

- To provide guidance and support to individuals interested in conducting educational research in the field of pharmacy.
- To enhance participants' understanding of the importance and relevance of educational research in pharmacy.
- To explore various research methodologies and approaches used in educational research.
- To foster critical thinking skills and analytical abilities in evaluating pharmacy education practices.
- To understand the impact of educational research on curriculum development, teaching methods, and student outcomes.
- To promote collaboration and networking opportunities within the field of educational research in pharmacy.

Topics to be covered:

- Introduction to Educational Research in Pharmacy
- Research Methodologies in Educational Research
- Quantitative and Qualitative Data Collection and Analysis in Educational Research
- Study Designs in Educational Research
- Assessment and Evaluation Methods in Pharmacy Education
- Curriculum Development and Design
- Teaching and Learning Strategies in Pharmacy Education.

A Program on Emerging Trends in Pharmacy Entrepreneurship

17th-July- 2018

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

• The course will give knowledge about the Emerging Trends in Pharmacy Entrepreneurship Development.

• Entrepreneurs who explore emerging trends in the pharmacy industry will gain a better understanding of the latest developments, technologies, and opportunities. This can help them to identify new business models and services that are in high demand and capitalize on them.

• By staying informed about emerging trends in the pharmacy industry, entrepreneurs can adjust their business plans and strategies accordingly. This can help them to better position their businesses for success and avoid potential risks and obstacles.

• Entrepreneurs who leverage emerging trends and technologies can differentiate themselves from competitors, attract new customers, and increase revenue. This can lead to improved profitability and long-term growth.

Resource Person:

Dr. S. Sharfudeen
M. Pharm, Ph.D.
Associate Professor
Department of Pharmaceutical Biotechnology
Sir CR Reddy College of Pharmaceutical Sciences, Eluru, Andhra Pradesh.

Last date to Registration: 16/07/2018

Objectives of the program:

- To explore emerging trends and technologies in the pharmacy industry, including telepharmacy, digital health tools, and personalized medicine.
- To identify potential entrepreneurial opportunities in the pharmacy industry, such as offering specialized services or addressing unmet needs in the market.
- To develop leadership and management skills that is essential for pharmacy entrepreneurs, such as decision-making, strategic planning, and team building.
- Strengthening financial management skills that are essential for pharmacy entrepreneurs, such as accounting, budgeting, and cash flow management.
- Ensuring pharmacy entrepreneurs understand and comply with the regulatory requirements of the pharmacy industry, including licensing, permits, and safety regulations.

Topics to be covered:

- Partnerships and collaborations in the pharmacy industry
- Digital health tools and mobile applications
- Specialty pharmacy services
- Medication therapy management (MTM)
- Innovation in pharmacy entrepreneurship
- Trends and challenges in the pharmacy industry

Outcome of the program

Our students and faculty had learned about the Emerging Trends in Pharmacy Entrepreneurship Development and gained knowledge on following areas:

Entrepreneurs who explore emerging trends in the pharmacy industry will gain a better understanding of the latest developments, technologies, and opportunities. This can help them to identify new business models and services that are in high demand and capitalize on them.

By staying informed about emerging trends in the pharmacy industry, entrepreneurs can adjust their business plans and strategies accordingly. This can help them to better position their businesses for success and avoid potential risks and obstacles.

Entrepreneurs who leverage emerging trends and technologies can differentiate themselves from competitors, attract new customers, and increase revenue. This can lead to improved profitability and long-term growth.

Emerging trends in pharmacy entrepreneurship, such as telepharmacy and personalized medicine, have the potential to improve patient care and outcomes. Entrepreneurs who adopt these trends and incorporate them into their services can provide better care for their patients, leading to improved health outcomes.

**A Seminar
on
Herbal medicine Research &
Global health: A Therapeutic Prospective
06th-June- 2018**

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- Enhanced understanding of the historical and cultural context of herbal medicine, fostering respect for traditional knowledge.
- Profound knowledge of the medicinal properties of various plants and their potential application in global health.
- Improved critical thinking and research skills to conduct evidence-based herbal medicine research.
- Increased awareness of the safety considerations and ethical aspects associated with herbal medicine.
- Empowered to participate in discussions and initiatives aimed at integrating herbal medicine into mainstream healthcare systems.
- Encouraged to contribute to the advancement of global health through research and innovation in herbal medicine.
- Strengthened cross-disciplinary collaboration and networking among participants, fostering a supportive community of herbal medicine researchers and advocates.

Resource Person:

Resource Person:
V. Sowmya,
M.Pharm.,
Asst. Professor,
Department of Pharmacology,
Nalanda College of Pharmacy, Nalgonda,
Telangana

Last date to Registration: 03/06/2018

Objectives of the program:

- To understand the importance of herbal medicine research in the context of global health.
