SAVE WATER- SAVE LIFE

Anurag Pharmacy college –NSS unit has organized Awareness programme on Save water –save life at Ananthagiri on 24 -07-2018 with great fervor. The programme has started with NSS Programme officer Mr.D.Chinnababu. For this memorable event, Mrs.M.Srinivasu teacher of ZPHS in Ananthagiri and students have participated in this programme.

Brief note on Save water –save life

Water is the most precious component needed for food and life. All human beings, animals and plants have a requirement of water. Thus, we need to conserve water resources. To conserve or decrease the polluting factors, we must be aware of the factors that lead to its deterioration.

Five lines for Save water

Use a displacement device (a water-filled bottle) in the toilet tank to reduce the amount of water required to flush. Use toilet only for its intended purpose. Don't use the toilet to dispose of trash or tissues. Repair leaky taps or toilets immediately. A slow drip wastes 15 to 20 gallons of water/day. Repair leaky taps or toilets immediately. A slow drip wastes 15 to 20 gallons of water/day Consider a small capacity toilet when replacing an old one. Take shorter showers.

Brief note on Social work

The social work fraternity across the globe gears up to celebrate World Social Work Day (WSWD) with enthusiasm, excitement & exuberance. Innovative & impacting programs are organized around the WSWD theme declared biennially by International Federation of Social Workers (IFSW). In India, the member associations of India Network of Professional Social Workers' Associations (INPSWA) & several schools of social work in the country celebrated WSWD 2018 by organizing a variety of programs about the theme ' Promoting Community & Environmental Sustainability'.

The day aims to celebrate the achievements of social work, along with raising the visibility of social services for the future of societies. World Social Work Day is commemorated to celebrate and promote the contributions of individuals and communities working for society.

MALNUTRITION FOR CHILDREN'S

Anurag Pharmacy college –NSS unit has organized MALNUTRITION FOR CHILDREN'S in Ananthagiri on 18-09 -2018 with great fervor. The programme has started with NSS Programme officer Mr.D.Chinna babu .For this memorable event, Mrs.K.Sukanya head master of ZPHS in Ananthagiri and students have participated in this programme.

Brief note on malnutrition for children's

Malnourished children may be short for their age, thin or bloated, listless and have weakened immune systems. Nutritional disorders can affect any system in the body and the senses of sight, taste and smell. They may also produce anxiety, changes in mood and other psychiatric symptoms. Children who are undernourished can lack energy, protein, or micronutrients and the condition may negatively affect growth, development and other outcomes. Over nutrition is caused by excessive nutrient intake. Being over nourished can lead to various health problems and obesity. Malnutrition can also cause acute problems, like hypoglycemia (low blood sugar). This condition can cause lethargy, limpness, seizures, and loss of consciousness. Children are particularly at risk and can become hypoglycemic after 4 to 6 hours without food.
