PROGRAMME REPORT

Name of the Programme: A One Week Faculty Development Program on “Insights in to Drug Discovery and Development”.

Date: 12-09-2022 to 17-09-2022.

Resource Person Details:

Name: Dr.D.Vasavidevi

Designation: Associate Professor.

Department: Pharmaceutical Analysis.

Organization: P.RamiReddy Memorial College of Pharmacy, Kadapa, A.P

Email ID: drdvs.reddy@gmail.com

Contact Number: 9494230364

Objective:

Anurag Pharmacy College had successfully organised A One Week Faculty Development Programme on “Insights in to Drug Discovery and Development”. The main goal of a preclinical drug discovery program is to deliver one or more clinical candidate molecules, each of which has sufficient evidence of biologic activity at a target relevant to a disease as well as sufficient safety and drug-like properties so that it can be entered into human testing.

Topics covered:

- Insights on recent approaches in drug discovery strategies and untapped drug targets against drug resistance
- Molecular Dynamics Simulations in Drug Discovery and Pharmaceutical Development
- Current insights into anti-HIV drug discovery and development

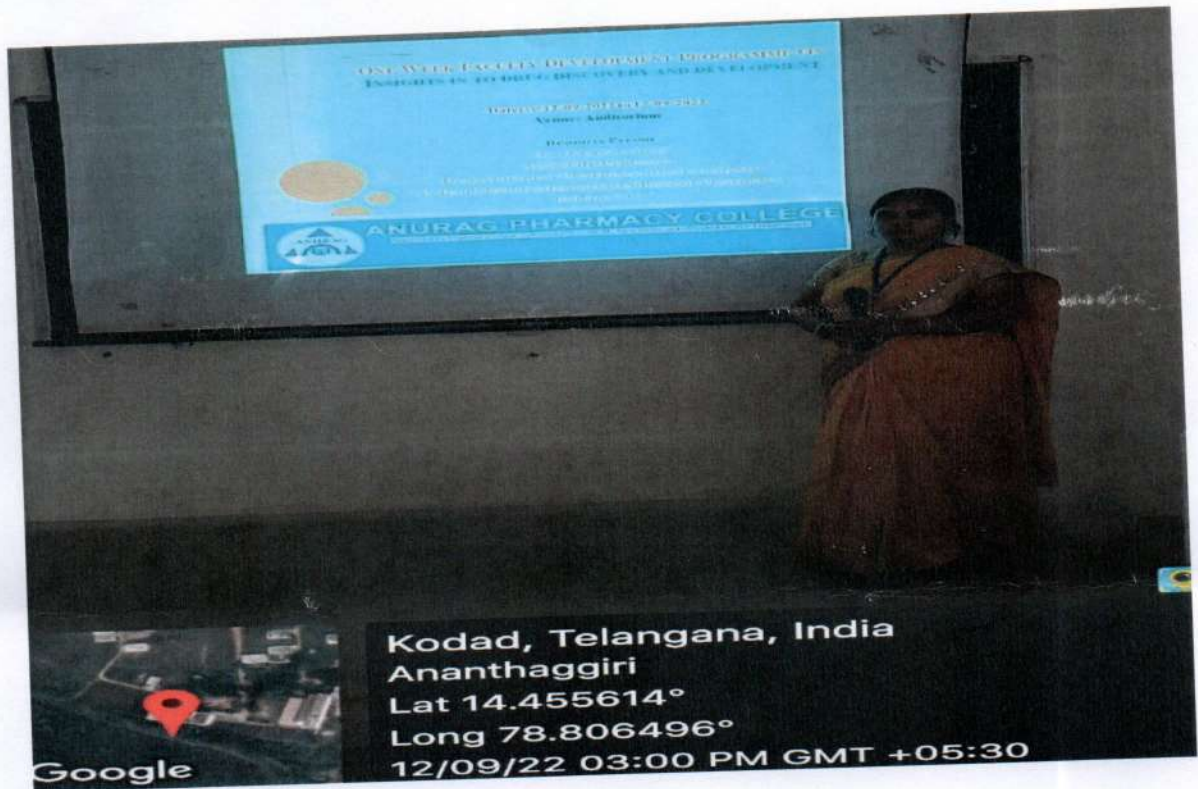

Outcome of the Programme: An open feedback was collected from the faculty members and they convey that the programme was extremely helpful for covering the topics related to the information which is useful to anti-drug resistance research as integrated approach where both molecular and genetic research needs to be as integrative objective of drug discovery. This is time to accelerate new drug discovery research with advanced genetic approaches instead of conventional blind screening

Registration

Registration fee is Rs.350/- including kit, e-souvenir, and participation certificate.

Objective

To encourage the students of Pharmacy to participate and present on latest happenings in Pharmaceutical Education and Research. It creates an academic and scientific platform for students to exchange their ideas and to prove their identity in the global pharmacy field.

Eligibility

Students of B. Pharm., M. Pharm., Pharm. D. and Research Scholars.

**A one week
faculty Development Programme on
"Insights in to Drug Discovery and
Development"**

Date: 12.09.2022 to 17.09.2022

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D.

This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- The programme was extremely helpful for covering the topics related to the information which is useful to, it is highly recommended to execute the anti-drug resistance research as integrated approach where both molecular and genetic research needs to be as integrative objective of drug discovery. This is time to accelerate new drug discovery research with advanced genetic approaches instead of conventional blind screening.

- The Drug Discovery Process involves many different stages and series of actions. Typically, it can be divided into four main stages: Early Drug Discovery, Pre-Clinical Phase, Clinical Phases, and Regulatory Approval. Let's explore the major steps that are taken in each of these stages to develop a new drug.

- New insights into a disease process that allow researchers to design a product to stop or reverse the effects of the disease. Many tests of molecular compounds to find possible beneficial effects against any of a large number of diseases.

Resource Person:

Dr.D.Vasavidevi
Associate Professor,
Department of Pharmaceutical Analysis.
Address: P.Rami Reddy Memorial College
of Pharmacy, Kadapa, A.P

Last Date for registration: 09/11/2022

Objectives of the program:

- To deliver one or more clinical candidate molecules, each of which has sufficient evidence of biologic activity at a target relevant to a disease as well as sufficient safety and drug-like properties so that it can be entered into human testing.
- To execute the anti-drug resistance research as integrated approach where both molecular and genetic research needs to be as integrative objective of drug discovery.
- To accelerate new drug discovery research with advanced genetic approaches instead of conventional blind screening.

Topics to be covered:

- Insights on recent approaches in drug discovery strategies and untapped drug targets against drug resistance
- Molecular Dynamics Simulations in Drug Discovery and Pharmaceutical Development
- Current insights into anti-HIV drug discovery and development

PROGRAMME REPORT

Name of the Programme: A One Week Faculty Development Program on “A Training On Continuing Education Programme On Inspirational Teaching Methods”.

Date: 20-02-2023 to 25-02-2023.

Resource Person Details:

Name: G.Venkateswarlu

Designation: Assistant Professor., Softskill Trainer

Department: Humanities and Sciences

Organization: Anurag Engineering College.

Email ID: vnky.abhi@gmail.com

Contact Number: 9492190136

Objective:

Anurag Pharmacy College had successfully organised A One Week Faculty Development Programme on **A Training on Continuing Education Programme on Inspirational Teaching Methods**”. The main objective of the programme is Continuous Professional Development allows teachers to learn new skills and techniques. Teachers who take part in professional development courses often learn how to improve their teaching methods and techniques. They also comprehend how to create lesson plans and other resources that can be used in the classroom.

Topics covered:

- Learner-centered teaching engages students in the hard, messy work of learning. It is teaching that motivates and empowers students by giving them some control over learning processes.
- Learner-centered teaching encourages students to reflect on what they are learning and how they are learning it. Knowledge is communicated to students mainly through classroom teaching
- Implementing the subject-centre curriculum is the development of intellectual abilities of the child. The actual teaching. It lays emphasis on teaching facts, imparting information and be acquiring knowledge to help the student do original and creative work.

Outcome of the Programme: An open feedback was collected from the faculty members and they convey that the programme was extremely helpful for covering the topics related to the information used for active learning methods such as the following:

Stimulate discussions, Use Socratic teaching (ask the students questions about the topics being covered, Assign hands-on or lab tasks, Assign in-class writing, e.g., stating the most important thing the student learned in classes.

A one week
faculty Development Programme on
"Training on Continuing Education
Programme on
Inspirational Teaching Methods"

Date: 20/02/2023 to 25/02/2023

About the college:

Anurag Pharmacy College was established in 2007 by "Amartya Educational Society" with an objective of bringing quality education closer to the rural students. Right from the beginning the management was clear about establishing the center of excellence in pharmacy. Accordingly a good institution with strong foundation has taken a shape in the form of Anurag Pharmacy College imparting education for B. Pharm, M. Pharm course in two branches along with Pharm D. This college is having well equipped and high standard laboratories and state of art library is well stocked with 3241 books, 37 printed and e-journals, computer lab with high speed internet facility. Apart from academics our college encourages students in extracurricular activities and also our faculty provides GPAT special classes.

About the Department:

Pharmacy is the science and practice of discovering, producing, preparing, dispensing, reviewing and monitoring medications, aiming to ensure the safe, effective, and affordable use of medicines. It is a miscellaneous science as it links health sciences with pharmaceutical sciences and natural sciences. The professional practice is becoming more clinically oriented as drugs are manufactured by pharma industries.

About the Programme:

- The programme was extremely helpful for covering the topics related to the information which is useful to improve, enhance teaching, pedagogical and practical skills for faculty in present educational scenario.
- a program of classes for adult students offered by a college, university, etc. on a part-time basis, as for updating knowledge and skills in a professional field such as medicine.
- Continuing education is when adults return to formal instruction to remain current in their career, develop serviceable skills, train for a new job, earn a degree, or develop a personal interest.
- Continuing Education's main aim and scope are that the learning process is wider than our formal education system. The learning process is ongoing and voluntary and helps in increasing knowledge.

Resource Person

G.Venkateswarlu

Assistant Professor. Soft skill Trainer
Department of Humanities and Sciences
Anurag Engineering College.

Last Date for registration: 17/02/2023

Objectives of the program:

- The main objective of the programme is Continuous Professional Development allows teachers to learn new skills and techniques.
- Teachers who take part in professional development courses often learn how to improve their teaching methods and techniques. They also comprehend how to create lesson plans and other resources that can be used in the classroom.
- To teaching in higher education since it enabled the obtainment of pedagogical knowledge, which, in the participants' opinion, helped to develop the ability of transposition of the theory into practice with greater confidence in the pedagogical action, showing a direct impact on professional performance.
- To the studies on teachers continuing education which demonstrate its use as a way to remedy deficient aspects of undergraduate courses in which the emphasis on theoretical aspects implies a devaluation of the pedagogical part

Topics to be covered:

- Current and Future Prospects of education.
- Teaching challenges in recent advancement.
- Learning and improving practical skills.
